Peerapat Jianjaroenwattana

A first-year student with a strong passion for app and website development. I love turning ideas into interactive experiences, whether it's building programs or exploring logic behind each mechanic. Currently learning and gaining experience but always ready to level up my skills.

Project

IoT devices(2023)
- Developed an AI security camera using machine learning to detect registered face.
- Built an automatic rubbish bin using C language and microcontroller that can detect movement.

Development(2024)
- Designed and developed a website using HTML.
- Recreated core gameplay features inspired by Undertale using GML

Education
- Undergraduate Program: Bachelor of Science in Information and Communication Technology (International Program)
Mahidol University
- High School Diploma: English-Mathematics Program (March 31, 2025)
The demonstration school of Silpakorn University (Secondary)
GPA 3.62

Skills

Technical
- UI design
- Video editing
- Machine learning
- Microcontroller
- Web development(Basic)

Soft
- Teamwork
- Communication
- Adaptability
- Willingness to learn

Language
- Thai (Native)
- English (Fluent)
- Russian (Basic)

Programming
- C (Learning)
- HTML (Learning)
- GML (Learning)

Hobbies
- Singing/Listening to music
- Playing guitar
- Playing games competitively (Tournament)
- Studying coding
